Mountain Biking Optional Excursion Information

Ages 9-12

Day Thursdays

Time 10am-12pm

Cost \$37

Excursion Campers who participate in the Mountain Biking Optional Excursion will enjoy a guided one and a half hour trail ride on the beautiful Sundance biking trails. First, Campers will be escorted to Sundance Mountain Outfitters where they will be fitted with a protective helmet and assigned a mountain bike. Campers will then be given instructions on trail riding tailored to their skill level. Our trained guides will work with Campers to make sure they are comfortable on the trails. Bike outings may include a ride on the chair lift.

Campers who are not participating in the mountain biking excursion will continue in the normally-scheduled Kids Camp activities.

Requirements Campers are not required to have previous mountain biking experience to participate, but they must be skilled bike riders. Trails at Sundance are considered intermediate to advanced. Because of the nature of the mountain terrain, all Campers must be comfortable on rocky and loose dirt terrain.

Supervision Campers will be supervised by a Kids Camp Leader who is trained in mountain bike guiding, at all times during the excursion.

Clothing Campers must wear assigned helmets at all times during the trail ride. Campers should not wear loose-fitting long pants to bike due to the risk of pant legs getting caught in the bike components. Shorts or pants with cropped or fitted legs are better options. **Campers must wear closed-toed and close-backed shoes.**

Waivers Campers must have the following release on file, signed by a parent or legal guardian:

- 2018 Summer Activities Release Agreement (available [online](#))

Cancellation Any Optional Excursion may be cancelled if registrations do not meet minimums, staffing is insufficient, age requirement is not met, or if camp management considers it necessary. A full refund for the excursion will be issued if cancellation occurs.
